Note: Individual visitors as defined in § 4 of the House Rules must have their identity (surname, first name, address, where they can be reached) recorded on a visitors' list before entering the building and answer questions relating to their risk of infection. If need be, this could help reconstruct paths of infection. (Visitors' data will be destroyed when the data are no longer needed. The same applies prior to admission to the group of persons stated in § 6 of the House Rules (media representatives) and in § 7 of the House Rules (external service providers; suppliers).
